Production

We assume responsibility for each and every step involved in the winemaking process, from the vine to the bottle. The grapes are picked by hand, go onto a sorting belt, are transferred by gravity, and pressed whole bunch.

This Gran Reserva is aged for 228 months. 100% artisanal process. The bottles are sealed with a cork stopper throughout the time they spend resting in the silence of the cellars, which enables the longest ageing periods. We use ‘pupitre’ racks, and riddling. Medium dosage of 7 grams/litre. The ‘expedition liqueur’ comes from the family solera, which is well over a century old. A traditional art which has been handed down from generation to generation.

Organic & biodynamic viticulture

Based on careful observation and the management of the factors which influence our terroir and its habitat. We do not apply chemical herbicides or pesticides, but instead we use natural resources, with the primary aim of maintaining a balance in the environment, and we preserve spontaneous ground cover in order to obtain spongy soils.

Through biodynamics, which goes one step beyond organic growing, we breathe life into our vineyards and seek to raise levels of biodiversity: we preserve spontaneous ground cover in order to obtain spongy soils, we apply plant-based infusions and decoctions to avoid pest infestations, and we produce our own animal and vegetal compost from our orchard of medicinal plants and our farm of cows, sheep, chickens, and horses.

Tasting notes

Apperance

Golden with intense gold tones

Nose

It shows great expressiveness and depth. Honeyed notes accompany the fruit (baked apple, louquats, dry figs). Candied orange peel, dried apricot. Floral touches. Distinct ageing character (toast, hazelnuts, nougat, marzipan, cocoa, toffee, coffee). Aromas of undergrowth, dead leaves and mushrooms

Palate

Pleasant and very full on entry. Smooth across the palate, with opulent, seductive body. Velvety textured carbon dioxide. A slightly bitter note blends with the powerful acidity of an infinite wine.

Food Pairings

This cava will be enjoyed with the most exquisite dishes. It is good with all types of food and recipes and is an ideal accompaniment throughout an entire "tasting menu". But of course, good company and great occasions are what suit it best.

To enhance the beauty of this fine cava, we suggest you serve it at 8 - 10° C in a large balloon wine glass to help it aerate and express its aromas to the full.

Gramona Enoteca can be enjoyed now or, if stored in the right conditions, in a few years' time.
